THE ONLY REMEDY

THE Eastern States, including New York and that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity: with a climate extremely trying to rtain constitutions, and a soil of small fertility, they have contrived to surpass more favored communities in almost every thing that coninces to social comfort and happiness. Unfortunately, they are occasionally so absorbed et the precautions which are essential to set, and suffering daily the most trying almost without a hope of relief. Physicians of eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative energies of the system yet discovered. It restores the ppetite, gives fresh vigor to the digestive gane, sends the blood through the veins with more lively current, corrects a tendency to epression of spirits, and fits a man for the usaction of business with a cheerful heart and an active mind. Unlike other medicines have been devised for the same object, BITTERS do not act spasmodically, with a temporary power - the influence of remedy is lasting. And if a patient will some attention to securing proper ise, after the relief has been afforded, he fear no return of the affliction.
